SUMMARY

Software Engineer with 2+ years of experience in enterprise ERP development, specializing in Stored Procedure (SP)-based backend systems. Successfully delivered production-grade projects for BEPZA (Bangladesh Export Processing Zones Authority) and Metal+. Core competencies include ASP .NET Core, Web API, C#, SQL Server, ADO.NET, Dapper, and React.js. Passionate about clean architecture, performance optimization, and writing efficient database queries.

SKILLS

- Programming Languages: C#, Java, JavaScript,
- Backend Development: ASP .NET Core, ASP .NET MVC, Web API, Minimal API, RESTful API Development, JWT Authentication, LINQ, Asynchronous Programming
- Frontend Development: React.js, Blazor, Razor Views (.cshtml), jQuery, Bootstrap 5, HTML5, CSS3
- Database Management: SQL Server, MySQL, PostgreSQL, T-SQL, Stored Procedures, Query Optimization, Performance Tuning, Transactions, Indexing
- ORM & Data Access: Entity Framework Core, ADO.NET, Dapper
- Debugging & Troubleshooting: Application Debugging, Stored Procedure (SP) Analysis & Debugging, SQL Query Troubleshooting, Console Log Analysis, Exception Handling, Backend Issue Troubleshooting, Bug Fixing
- Tools & Platforms: Git, GitHub, Postman, Swagger, Visual Studio, VS Code, SSMS, Azure DevOps
- Software Architecture: OOP, Clean Architecture, SOLID Principles, Repository Pattern, Dependency Injection
- Testing & DevOps: Unit Testing, xUnit, CI/CD Pipeline, Docker

EXPERIENCE

Software Engineer | Pirthe Limited

Feb 2024 – Ongoing   arker Gulshan, Dhaka

- Maintained and enhanced ERP modules using ASP .NET Core MVC and Web API, serving multiple clients across telecom and government sectors to support end-to-end business operations.

- Single-handedly built the Enterprise Service License (ES License) module for BEPZA (Bangladesh Export Processing Zones Authority) using ASP .NET Core MVC, Razor Views, and T-SQL Stored Procedures — featuring Authority Approval Workflow, PDF License Generation, Real-time Application Tracking, Renewal, Duplicate, Surrender & Cancellation, and Email Notification System.
- Designed and integrated RESTful and Minimal API to enable seamless data exchange between ERP modules and third-party SMS services and SMTP-based email server, ensuring real-time notification delivery to end users.
- Contributed to a Telecommunications Service and Operation Management (TSOM) ERP system for Metal+ using ASP .NET Core and T-SQL Stored Procedures — covering Inventory Management, Employee Management, Leave Management, Role-based Access Control, 10+ Dynamic Reports, and SQL query optimization through strategic indexing.
- Implemented data access layers using Entity Framework Core and Dapper — utilizing EF Core for structured ORM-based data modeling and Dapper for optimized Stored Procedure execution and complex query handling.

EDUCATION

Bachelor of Science in Computer Science and Engineering | Bangladesh University of Business &

Technology (BUBT)

2020 – 2025 | Dap-Darker Dhaka, Bangladesh

- CGPA: 3.06/4.00
